International Year of Plant Health 2020-2022

- 1. Increase global awareness of plant health and the role of plants in food, nutrition, and livelihoods.
- 2. Promote plant health as a key element of sustainable development.
- 3. Encourage the use of plant health in policy-making and decision-making.
- 4. Support the development of plant health infrastructure and capacity.
- 5. Promote the use of plant health in education and training.
- 6. Encourage the use of plant health in research and innovation.
- 7. Support the development of plant health legislation and standards.
- 8. Promote the use of plant health in international trade.
- 9. Encourage the use of plant health in disaster risk reduction.
- 10. Support the development of plant health in the private sector.
